

Tree T :

The diagram shows a tree structure T with nodes labeled A, B, C, D, E . The root node is at the top. The left child of the root is the parent of nodes A, B, C . The right child of the root is the parent of nodes D, E . There are two horizontal dashed red lines. A blue arrow points from the right side of the diagram towards the right. Below the tree, there are two horizontal dashed purple lines and a horizontal dashed red line. A node labeled A is shown at the bottom right, connected to a node above it, which is part of a larger tree structure extending off the right edge of the image.
